THE WINNING
SOLUTIONS!**

COMPANY ABOUT US

NewAge was founded in the year of 1960 at Surendranagar, Gujarat, India and it has 6 decades of experience of manufacturing various kinds of Fire Fighting Equipments and Fire Hoses. NewAge Group has the factories spread over 50,000 sq. mtr. in Surendranagar. It has its regional offices in New Delhi, Ahmedabad, Pune, Chennai, Kochi, Vadodara, Kolkata and Bangalore. NewAge® also sells its equipment through its efficient network of Distributors throughout India. For the last 45 years NewAge® has been selling its product abroad as well and today exports the products to more than 60 countries. Since its inception,

NewAge has grown to become the only manufacturer in the subcontinent to provide the complete range of Fire Fighting Equipments starting from Fire hoses, Hydrants, Water Foam Monitors, Foam Equipments to Fire Fighting Portable Pumps, Trailer Fire Pumps and Fire Vehicles. NewAge® is indisputably the leading manufacturer of these products. It is considered a benchmark in the fire industry due to its consistent and quality based principle. NewAge® group has acquired Jayshree Textiles - a division of India Rayon Corporation, Aditya Birla Group in 2003 and Hose division of one of the other renowned international companies in 2007.

With a production capacity of 15,000 meters of fire fighting hose per day, NewAge® Group of companies became the largest production house for fire fighting hoses in Asia.

NewAge Group of Companies is backward integrated and fully self-reliant for its production activities with its own in-house Foundries and Machine Shops with daily casting capacity of 2,000 Kilograms.

NewAge has been a regular supplier of approved quality goods to sectors like Oil and Gas, Chemical and Fertilizer, Power Plants, Aviation Industry, Construction, Port Trusts, Defence Establishments and other such industries. The group of companies employs about 500-people in-house team successfully and it keeps growing. It is a regular recipient of Export Excellence Awards for exporting the product to leading countries such as Singapore, Malaysia, Kuwait, Myanmar, Indonesia, United Kingdom, Italy, Germany, Denmark, Belgium, Greece, Canada, Ireland, United States of America, South Africa, United Arab Emirates, Philippines, and others.

INFRASTRUCTURE

GROUP OF COMPANIES

STATE OF ART MANUFACTURING FACILITIES

NewAge Group of companies has factories spread over 50,000 square meters at Surendranagar, Wadhwan, Gujarat and employs about 500 people. We are Asia's largest producer for the Fire Fighting Hoses with daily production capacity of 20,000 meters. With a daily casting capacity of 3000 kgs in our own foundry and machine shop, **NewAge** Group of companies are fully self-reliant with complete backward integration.

We also have a large in-house testing facility with a tank capacity of 6,75,000 litres, Pumping capacity of up to 12,500 GPM at the pressure of 9 Bar for testing monitors and hydrant equipments. Hose testing bed facility for conducting heat resistance, abrasion test, flexibility under low temperature, moisture absorption test, ozone resistance test, accelerated ageing test etc. on fire hoses.

QUALITY ASSURANCE

At **NewAge®** Group of Companies, when it comes to protection of people and property, there is no scope for error because we believe that it is our responsibility to be the good stewards of safety. For complete customer satisfaction and safety, quality is ingrained in our work and our values.

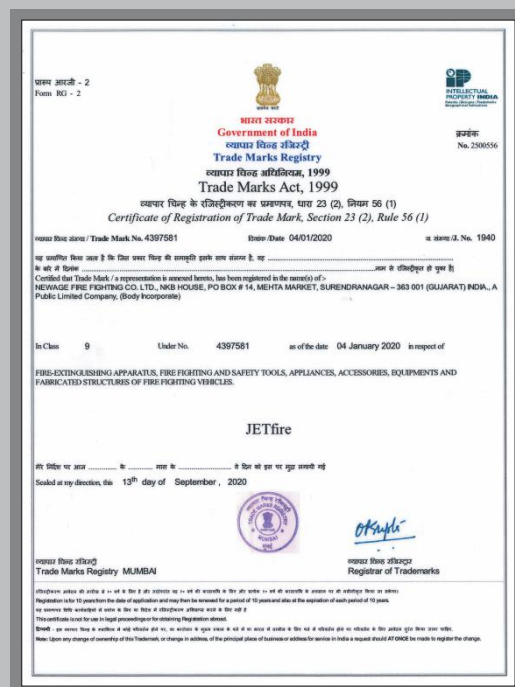

Since its inception, **NewAge®** endeavors to continually and effectively improve the quality of its products and services in accordance with international standards. As a part of our quality policy, our equipment meets the ISO 9001: 2008 guidelines and

we are accredited by numerous national and international regulatory bodies for the remarkable quality of our work.

At each phase of production, our quality control personnel rigorously tests and examines the performance and durability to present our customers with a neat portfolio of products.

At **NewAge®**, we have a relentless passion for quality as we aim to make the community a safer and better place to live.

APPLICATION AREAS

PHARMACEUTICAL APPLICATIONS

Pharmaceutical industry revolves around “Bulk drug manufacturing units” dealing with hazardous chemicals with very low flash points, “Formulation units” and large “Warehouses” storing raw materials and finished products. Highly flammable solvents in reactors and centrifuges expose “Bulk drug manufacturing units” to high degrees of fire and explosion risks.

BUILDING & CONSTRUCTION

In construction NewAge Industry's goal is to provide an optimum combination of improved fire protection. We tailor our services to meet your specific needs, which can be as comprehensive as oversight of a project's fire protection program from conceptual development through the construction period.

HANGERS AND AIRPORTS

Installing fire fighting equipment in aircraft hangars is not only about the protection of the aircrafts but also about protecting the hangar itself. There is always a risk of fuel or hydraulic fluid leakage due to some damage or malfunction. This can be ignited by hot surfaces or electric sparks.

PETRO-CHEMICAL & REFINERIES

The firefighting security concerning petrochemical business and strategic oil reserves affect the nerve of economic Stability and national security. The firefighting products and systems have already experienced guaranteed function in many large petrochemical plants and refineries.

ROAD & RAIL TUNNELS

NewAge provides water mist systems, recent full-scale tests have shown that water mist, due to its strong momentum, can effectively penetrate the windy and turbulent conditions encountered in tunnels, and reduce temperatures sufficiently to prevent fire spread and structural damage.

SERVER ROOMS

Computer rooms & Server-rooms are the very important places in the Industries like IT Industries, Telecom Services, Design Centres, Call Centres, & BPO

MARINE JETTY & OIL PLATFORMS

Due to the nature of the work, oil and gas process facilities and marines jetties are surrounded by fire risks. Highly flammable liquids and gases can lead to intense fires which can be difficult to manage - threatening property damage, pollution, and risk to human life.

INDUSTRIAL APPLICATIONS

Rotating or other machinery is operated in virtually every industrial facility. Due to the fire hazard the machinery involves, a fixed fire protection system is essential. The high availability requirements and personnel safety emphasises the importance of fire protection.

POWER PLANTS

NewAge is committed to protect such important national property by providing efficient fire protection systems to ensure safety of Power-Plants.

SOLUTIONS WE OFFER

FIRE HYDRANT SYSTEMS

Hydrant systems are active fire protection measure, consisting of a system of pipe work connected directly to water supply to each hydrant outlet and is intended to provide water for the fireman to fight a fire. We NewAge® provide various ranges of fire hydrant equipments like fire hoses, hydrant standpost, valves, water monitors etc.

FOAM SYSTEMS

Foam systems Allows a specific amount of foam to be mixed with water through the fire apparatus pump mechanisms. Foam systems provide versatility and improved efficiency in the battle against dangerous fires. We NewAge® provide various range of foam equipments like foam branch pipes, foam inductors, mobile foam units etc.

FIRE SPRINKLER SYSTEMS

An active fire protection method, in which fire sprinklers are connected to water distribution piping system with adequate pressure and flow rate. Sprinklers consist of glass bulb filled with glycerin-based liquid which expands at appropriate temperature and breaking the glass to activate the sprinkler head. We NewAge® provide Fire sprinklers, Alarm check valve and flexible hoses..

FIRE RESCUE VEHICLES

Rescue fire trucks are specialized vehicles designed to provide support in rescue operations. We NewAge® provides customized fire rescue vehicles and accessories as per the requirements of the various fire departments and clients.

THE TRUSTED LEGACY BUILT ON PROVEN PERFORMANCE!

NewAge is a highly respected brand nationally and internationally for its premium quality and impeccable track record of success stories. **NewAge** has delivered transformative growth over the past 6 decades with the whole organization acting in concert. Right from the marketing & sales team that drives the customer acquisition, to the product and service leaders who deliver the customer experience and the customer service staff who help ensure customer satisfaction and loyalty. The trust that customers have in NewAge products along with persistent and nimble execution has helped to ensure growth in spite of the market conditions, competitive threats and changing sentiments.

STRENGTHS

LEADERS IN INNOVATION

NewAge Evaluates leadership and innovation management strategies for corporate innovation and identifies opportunities for New & Customized products and businesses in alignment with the organizations's strengths and embraces continuous improvement, innovation, and sustain ability as part of the core strategy.

OUR TEAM IS OUR POWER

NewAge has a complete range of technical resources as well as the required expertise and experience to undertake the most complex demands and challenges.

CAPACITY AND FLEXIBILITY

NewAge has in -house engineering and design capabilities by means of which it can successfully manage the major orders, whilst maintaining the essential flexibility to respond quickly and effectively to unexpected events.

ON-TIME AND IN-BUDGET

NewAge's impeccable track record in successfully delivering the solutions and products on-time and in-budget has enabled its sustained, profitable and steady growth over the last decades.

BEST SOLUTION AT OPTIMUM PRICES

NewAge has a very vast base of partners and strong relationships. With its visionary board and experienced management team, the effective policies plays an important role in efficient execution of the solutions.

QUALITY AND COMPLIANCE

NewAge has an extensive range of premium quality products, suitable for various applications, which are manufactured and approved in accordance with national and international standards.

FINANCIAL STRENGTH

NewAge has a strong financial position with a rich base of its own plant and machinery as well as ancillary equipment.

DISTRIBUTION & AFTER-SALES SUPPORT

NewAge has a wide network of distributors, dealers, agents etc. Pan India and also internationally which ensures easy availability of products as well as much required and urgent spare parts. NewAge exports its products to more than 65 countries in the world.

PRODUCT DESIGN & DEVELOPMENT

For over 6 decades, NewAge has been continuously involved in research, designing, developing, and manufacturing a broad range of world-class firefighting equipment that meets the ever-changing and demanding industry standards.

Analysis of the market information is done by adding various elements such as code requirements, industry standardization trends, technological trends, and customer requirements. Extensive surveys are conducted and customer feedback is taken to

gather the information. Direct interactions with the end-users, fire service departments, consultants, contractors, etc. are conducted to understand their challenges and requirements for further safety measures and functionalities in the products. Based on all the Intel the roadmap to the product development is chalked-out. A team of expert designers at NewAge thrives to come up with the best designs and solutions. Further, this leads to integrated production and quality control systems.
