

SECTION 2 - SYSTEM COMPONENTS

Burst Disc

A burst disc is factory fitted to every valve assembly. It is designed to rupture when the container becomes over pressurised when subjected to temperatures above the designed storage temperature of the container.

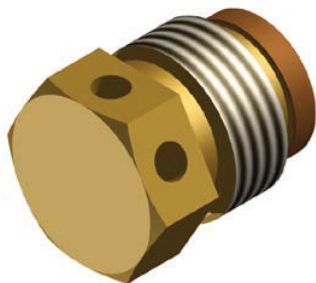

Figure 4 - Burst Disc

Burst Disc for 50 mm (2 in.) Valve
Part No. 570793

Technical Information

50 mm (2 in.) Valve

Body:	Brass CZ 121
Rating:	53.4 bar (775 psi) @ 50 °C (122 °F)
Thread:	M18 x 1.00
Hole Orientation:	90° to Body
Torque:	35 Nm (25.8 ft lb)
Overall Size :	20 mm (L) x 18 mm (Dia) (0.79 in. (L) x 0.71 in. (Dia))
Weight:	0.028 kg (0.062 lb)
